

Website Development Brief

Addison Bradley Emirate

PROJECT OBJECTIVE

- To recreate the current website for Addison Bradley Emirates to reflect the branding, tone, and professionalism of Addison Bradley UK, while tailoring functionality to the UAE market.

The new website should:

- Be interactive, fast, and professional
- Cater to both English and Arabic users
- Drive traffic through strong SEO and content
- Integrate with a quoting platform for real-time insurance comparisons

SCOPE OF WORK

Design & Branding

- Align with Addison Bradley UK's design system (colours, logo, fonts, style)
- Adapt design to appeal to the UAE market (e.g. bilingual layout, local imagery if relevant)
- Amend logo to replace &Co with Emirates

Functionality

- Responsive design (mobile, tablet, desktop)
- Bilingual site: full support for English and Arabic
- Integration with our insurance quoting platform (will require branding to match our website)
- Secure contact and inquiry forms
- GDPR- and UAE-compliant cookie banner and privacy notices

Quoting Platform Integration

- Connect the website to our third-party quoting engine (details to be provided)
- Apply Addison Bradley branding (colours, logo, button styles) to the quoting tool
- Ensure flow is seamless between website and quoting tool

SEO & Performance

- Full on-site SEO implementation (meta tags, keyword-focused content, alt text, speed optimisation)
- Optimised for UAE search engines (Google.ae, Bing UAE, etc.)
- Structured URLs and sitemap submission
- Basic analytics setup (Google Analytics, Search Console)

Content Creation

- Professionally adapt the UK content to the Emirates market - written content for all key service pages
- Keyword-researched
- Arabic translation/localisation by native speaker (not AI-generated only)

CORE PAGES REQUIRED

- Home

- About Us
- Our Services (overview + individual pages: e.g. Property, Motor, Medical, Commercial, Cyber)
- Get a Quote (linked to quoting tool)
- Contact Us
- FAQs
- Blog (optional for future content)

TIMELINE

We are aiming for a project launch within 8–10 weeks from signing, including testing and Arabic localisation.

NEXT STEPS

Please provide:

- A proposal including estimated cost, timeline, and milestones
- Portfolio of similar bilingual and insurance/financial services websites
- Details of your SEO and copywriting capabilities
- Maintenance and support options post-launch
